

Automotive Collision Repair and Refinish Technology Diploma

West Burlington Campus

Program Information

The Automotive Repair and Refinish Technology program combines state-of-the-art equipment with an Inter-Industry Conference on Auto Collision Repair (I-CAR) curriculum, equipping students with the technical and professional skills required to pursue a career in the ever-changing collision repair industry. I-CAR techniques and procedures are the industry standard for collision repair professionals. Students will gain hands-on technical experience in SCC's state-of-the-art lab facility. Students will use the latest tools and equipment to perform repair methods related to mechanical, electrical, refinishing, structural, non-structural, and calibration.

After successful completion of the first two semesters, students will earn the Automotive Collision Repair and Refinish Diploma.
